

+ Good reasons for you to visit COMPOSITES EUROPE 2015

Numerous innovations

COMPOSITES EUROPE is the biggest and most innovative trade show in Germany for composite materials and their applications.

Complete spectrum of topics

Exhibitors from all along the value chain present the very latest products – from raw materials to innovative technologies to services.

Solutions with a future

Here you can find material solutions, concepts for lightweight construction and the very latest production and automation solutions to deal with your current and future challenges.

International marketplace

The 10th European trade show for composites, technologies and applications expects to attract more than **450 exhibitors from 30 countries and 11,000 visitors from all around the world.**

Exclusive supporting programme

Special shows for trends and innovations and forums for interaction and communication open up fascinating insights into the world of composites.

Valuable synergy effects

Visitors to COMPOSITES EUROPE have free entry to the parallel trade show HYBRID Expo: right next door in hall C2.

+ Register now and reserve your ticket!
www.composites-europe.com/tickets

Don't forget: Your ticket for COMPOSITES EUROPE also gives you entry to the HYBRID Expo in the adjacent hall C2 – the sole trade show for manufacturers and users of hybrid components made of metal-plastic combinations.

+ COMPOSITES EUROPE – the whole world of composites

Suppliers and processors, technology manufacturers and service providers, Global Players and special vendors – the exhibitors at COMPOSITES EUROPE represent the complete spectrum of the industry. Here you can find innovative products, solutions and services for all production steps along the entire composites value chain!

+ Business, networking, knowledge transfer: exclusive supporting programme

Theme pavilions

Visit the exciting theme pavilions such as the Bio-Based pavilion, the Young Innovative Companies/Made in Germany pavilion or the national pavilions for the PRC, France, the Netherlands, Italy and the USA.

COMPOSITES Forum

Follow the interesting lectures concerning current topics, innovations and research results from the application industries (hall 5).

Product Demonstration Area (PDA)

Experience the illuminating product presentation (PDA Expo, hall 3), live-presentations of processes and procedures (PDA, hall 7) and the special show “Industry meets Science” of the IKV and further institutes of the RWTH Aachen concerning process technology, design, quality assurance and repair (hall 7).

More than 450 exhibitors from 30 countries

+ International technical capabilities in one place: 3 days of bestsellers and innovations

User industries

- Automotive
- Aerospace
- Engineering
- Building and construction
- Marine/shipbuilding
- Pipes, tanks and cases
- Sports and leisure
- Transport (rail, buses and mass transport)
- Electrical/electronic
- Wind energy, and much more

Stuttgart: The high-tech centre of Europe

The heart of the German economy beats in the Stuttgart region. The traditional home of the most important application industries is regarded as one of the leading high-tech powerhouses in Europe. The leading sector in the region is the automotive industry (approx. 25 %), followed by machine and industrial plant construction (approx. 20 %).*

The primary focus is on research and development. Here you can meet leaders in the world market and Hidden Champions together with innovative niche vendors and medium-sized companies with a passion for quality.

* Details taken from the official website of the Baden-Württemberg region, www.baden-wuerttemberg.de. As of: 20 November 2014.

1st International Composites Congress (ICC)

Core topic:
“Composites on the way to becoming a key industry?”
21 and 22 Sept. 2015

Partner country: USA

Celebrate a premiere with us! For the first time ever at COMPOSITES EUROPE, international experts will report on the topic of the “US Composites Market”.

bio!CAR conference

Do not miss the premier conference for bio-based materials in automotive construction.
24 and 25 Sept. 2015, ICS
