

VENDEX

Vending Technologies and Self Service Systems Exhibition

VENDEX TECHNOLOGIES AND SELF SERVICE SYSTEMS EXHIBITION

Vending machines offering a wide range of products in big cities keep increasing in number and variety. Vending machines with differing features and designs have started to serve as a novel and profitable investment tool for investors as a result of increased use of vending machines and product diversity offered by them.

Having entered our lives as a result of rapid urbanization, food and beverage vending machines, which we come across at subway stations, attraction centers, universities, hospitals and offices, have created a new market and new business opportunities in this market in Turkey.

Parallel to these developments, VENDEX, which will be organized with the mission of introducing the novelties in this sector in our country, bringing together all stakeholders of the sector that do business with each other and creating a platform for new commercial collaborations, is getting ready to respond to the needs of the sector.

Between 13-15 February 2020, VENDEX will be hosting interested professionals that wish to discover new opportunities, as an ideal platform for manufacturers, importers, exporters and distributors of vending machines as Istanbul Expo Center.

We invite you to this important meeting.

13 - 15 FEBRUARY 2020

ISTANBUL EXPO CENTER / ISTANBUL - TURKEY
